

The Federal Communications Commission

Dear The Federal Communications Commission,

I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am 67 & living on social security with a limited income. I buy prepaid phone cards for my cell phone, & use it strictly for safety and emergencies so I am able to keep my cost below \$10 a month.

Under the flat fee proposal, people who make few long distance calls would pay the same as people or businesses that make many calls. Low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. It is unfair to charge me more so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

evelyn meier
